Dwayne Oberhoff, the biologist hired by the District to perform the snail survey, has been in contact with USFWS staff regarding the District's plan to upgrade the pathway between 7th Street and Ferrell Avenue. According to Dwayne, the conversation has been positive and the USFWS staff person has been asking clarifying questions, like where the staging area for construction will be. Dwayne and I have updated the plan and resubmitted to USFWS with the additional information they requested. I will provide updates to the Committee as new information is available. Please feel free to contact me if you have any questions.
