Utilities Capital Projects:

- **County-wide Water Action Team (CWAT) Desal Working Group.** The CWAT Desal Working Group convened a meeting in May to continue working on the long range Desal Project planning and implementation activities. This is an effort undertaken by the CWAT which is a group of water agencies, led by the County, that are committed to long-term water resiliency projects that will provide water security throughout the region. The planning horizon for the desal effort is twenty plus years.
- **Clint Requa Receives his Water Treatment 3 Certification from the State.** Clint passed his Treatment 3 test on May 20th and becomes the first Water Resource Operator to obtain this level of certification in water treatment. A big congratulation goes out to Clint for his hard work preparing for and passing the exam!
- **Drought Reminder.** We want to remind the community it is still important to pay close attention to your water use, limit your outdoor irrigation and always check for leaks around your home and yard. If you need assistance, please call the office at 805-528-9370.
